

KLove radio is a very big part of our community. They provide a great source of good Christian music that did not exist until they came into the area. They provide local community calendar information, and information on concerts in our area. I even won a contest where I received a pair of tickets to a local concert. If KLove was gone, I would lose the only source of contemporary Christian music I have. There are other Christian stations, but they are more talk and preach, not music. I feel the music allows the word of Jesus Christ to get out to a wider audience that will not listen to Christian "preaching". I feel this is for the betterment of the entire community. We need a source of positive, encouraging music that will help lead people to the Lord Jesus. I would be very disappointed, and upset, if KLove was replaced by a LPFM that may, but would probably not, play contemporary Christian music.
